

## Activate

### Competitive Solar Lending that Helps Protect Our Planet

Starting with and perfecting a solar loans business means building the infrastructure to support any indirect lending you want to build in the future. With most solar panel loans only accepting a 650+ credit score, Activate has the opportunity to make residential solar panel lending more accessible.

### Custom Digital Banking Features

Get your loan quick and easy

Celebrate key milestones in your loan and we'll donate to three environmental charities

Easily track your payments, balance and donations

The global solar panel market is predicted to reach

# \$176 Bill

by 2027

Average Solar Loan

# \$30K

# 2,5%

of all homes in the US will have a solar installation by 2024
